FROM SELECTION TO QUOTATION

Planning Your Commercial Program

A clear inquiry allows the commercial team to prepare a product proposal aligned with your destination and assortment needs.

1 Select

Identify the products and formats of interest.

2 Specify

Confirm size, unit weight and other product requirements.

3 Pack

Describe the preferred packing and presentation format.

4 Quote

Share volume and destination details for the quotation.

INQUIRY CHECKLIST

Information to include

- Target market and destination
- Product selection and preferred formats
- Required size or unit-weight range
- Packing and labeling requirements
- Expected order volume
- Additional documentation requirements

Availability, specifications, commercial terms and timing are subject to the final quotation and destination requirements.
